New Senior Earthdog rule!

Chapter 4. Section 12. Senior Earthdog Test – Qualifying Performance
(paragraph #2) **Change is underlined.**

Timing of the dog for the approach portion of the test shall start when the dog is released by the handler. The dog has 90 seconds from the time of release to reach the quarry, provided that it is continuously searching during that time. The dog may enter and leave the den, provided it has not reached the quarry. If the dog exits the den prior to reaching the quarry, the handler may, on his/her own determination (without being instructed by the judge), give the dog one command without penalty. To earn a qualifying score, the dog must make at least 30 feet of forward progress to reach the quarry. A dog which false marks by vigorously or loudly working in the false den area for more than 15 seconds may not pass.

What does this mean? You may give a 2nd brief command to your dog if it exits the tunnel (similar to in Master). You won't know if your dog has reached the quarry and quietly left it, then exited the tunnel. So go ahead and give that second command if you want. The judge will tell you afterward that you didn't pass because the dog reached the quarry and left. It is up to you as a handler to decide if and when you want to use that second command. But you cannot use hand signals along with it, nor move from the start line. A valid second command cannot be given if your dog fails to enter the tunnel, only if it enters and then exits.

****Note: ME Titled dogs are allowed to enter any regular or non-regular class (including IQ, and Junior), however no further legs or titles are awarded by AKC.***
